

ISSICON 2019

INTERNATIONAL SPINE AND SPINAL INJURIES CONFERENCE

Innovation in SPINE CARE

To meet the needs of
emerging India

10 - 14, October, 2019

Workshop 10th - 11th - Indian Spinal Injuries Centre
Conference 12th - 13th - Le Meridien

www.issicon.com

Organized by Indian Spinal Injuries Centre, New Delhi

Conference Highlights

- Knowledge about Innovations: Robotics, Navigation, Diaphragmatic Pacing, Epidural Stimulator, Neuromonitoring
- **Best published paper award of 1000 Euro's** sponsored by Dr. Patrick Kluger
- **Gold medal awards** for best paper presenter: Facilitating a fellowship in a reputed centre in Europe
- **Gold medal awards** for the best poster
- Provision of accommodation and waiver of registration for select delegates on first come first serve basis.
- Spinal Cord Society Oration
- Distinguished International and National Faculty
- Plenary sessions followed by Parallel Sessions on Surgical and Rehabilitation Management
- **CME & Quiz** for Post graduates
- **Workshops** on Innovations/advancements for surgeons and rehabilitation health professionals Physiotherapists, Occupational Therapists, Assistive Technologists, Nurses, Psychologists, Social Workers & Peer Counselors and Consumers (See on Page 18)
- **IGASS Symposium - Degenerative Spine**
- **Post conference basic & advanced cadaveric workshop**
- **19th Annual Conference of Spinal Cord Society**
- **General body meeting of Spinal Cord Society (Indian Chapter)**

Message

Indian Spinal Injuries Centre is today recognized by the Government of India as the tertiary level Center for management of spinal injury. It is also gaining international recognition for the quality of its services. However we have been fortunate to have had the strong support of the National and International Community to overcome our share of hardships, hurdles and difficulties. We are now seeing the fruits of our efforts blossoming.

On behalf of Indian Spinal Injuries Centre and Spinal Cord Society, I invite you all to witness for yourself, the developments in the field of spinal injury management and to contribute to the success of the conference.

Major HPS Ahluwalia
Chairman - ISIC

Message

It is a privilege to welcome Delegates from India and abroad for ISSICON – 19 organized by Indian Spinal Injuries Centre in New Delhi, India.

Today spine problems are increasing at a rapid space in developing countries and with better socioeconomic conditions, pattern of spine injury is changing in relation to demography and epidemiology which in future may cause many problems in healthcare programs.

Delhi, the capital city is ancient and carries many footprints of human civilization.

Dr. A. K. Mukherjee
Organizing Chairman – ISSICON – 2019
President – Spinal Cord Society – India
Director General, Indian Spinal Injuries Centre, New Delhi

Message

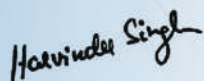

There have been rapid advancements in Spine Trauma Management. Robotics, Epidural Stimulation, Diaphragmatic Pacing, Neuromonitoring, Virtual reality are just some of them. ISSICON 2019 focuses on how to optimally use innovation in spinal care to meet the needs of an emerging India.

Informative workshops in line with the theme have been scheduled. The scientific program of the main conference has shaped up very well and promises to provide comprehensive information about advancement /innovations in Spine Trauma Care. We are privileged to have the support of very distinguished international (27) and national (51) faculty.

We extend a healthy invitation to all concerned professionals for what promises to be a scientific fest. We will also strive to provide an ambient environment for socializing and networking.

Look forward to having you all with us.

Dr. HS Chhabra
 Chief of Spine Service &
 Medical Director, ISIC
 Secretary, Spinal Cord Society
 President, International Spinal Cord Society (ISCoS)
 Executive Member, Asian Spinal Cord Networking
 President, Association of Spine Surgeons of India

Indian Spinal Injuries Centre

NEW DELHI

ISIC is the most advanced Spine, Orthopedic and Neurosurgical centre in India with the latest state of the art diagnostics and surgical equipment and a highly qualified team of specialists recognized internationally who have been trained in leading institutes of India and abroad.

Indian Spinal Injuries Centre provides state of the art facilities for the management of all types of spinal ailments. It has a team of dedicated, internationally trained & acclaimed spine surgeons providing cutting edge medical & surgical technology. The spine service provides comprehensive management of spinal injury, back pain, spinal deformities, tumors, osteoporosis etc. Motion preserving spine surgeries including disc replacement & dynamic fixation, minimally invasive spine surgery including endoscopic disc excision, minimally invasive pedicle screw fixation & decompression, percutaneous kyphoplasty, thoracoscopic / laproscopic fusion & advanced pain & spasticity management techniques like intrathecal baclofen pump implantation are some of the cutting edge surgical technologies practiced at the centre.

First in India [And in fact first Outside US]: ISIC Becomes First Hospital Outside US to Successfully Perform Complex Spinal Surgeries Through Advanced Spine Robotics System

Robotics is a recent advancement in spine surgery, a specialized approach to a complex procedure that allows planning a surgery and facilitates highly accurate and predictable execution of the plan. Robotics is helpful in inserting implants in the spine – for a spine surgeon robotics is a boon, particularly in high volume facilities such as the Indian Spinal Injuries Centre (ISIC).

New Delhi, 10 July 2019: Achieving a major milestone, the Indian Spinal Injuries Centre (ISIC), New Delhi has become the first hospital outside the US to add a highly advanced robotics system to its spine surgery capabilities. The hospital has already performed a number of successful precision surgeries using the recently acquired advanced Spine Robotics System.

The orthopedic service covers all orthopedic ailments including trauma, joint diseases & replacements, oncology, pediatric orthopedics & upper limb ailments. The team of orthopedic surgeons are trained into each sub speciality thus there is an expert available for each type of orthopedic ailment. The combination of good medical management (including care by a rheumatologist where required), state of the art surgical management & world class rehabilitation ensure an optimum outcome.

ISIC is much more than a hospital, it is also a training institute and teaching hospital affiliated to a leading university of the country. One of the most coveted courses include Masters of Prosthetics and Orthotics among many with the provision of on the job training thus, attracting students from all over the nation.

Rehabilitation Department

Hydrotherapy

Prosthetics & Orthotics

The rehabilitation department is considered to be a vital core element of the hospital with one of the largest teams of therapists, trained in some of the best institutes of India and abroad. It offers complete facilities of physiotherapy, occupational therapy which provides guidance for patients to lead a productive, self-reliant life followed by vocational training which offers the SCI patients with a new hope and confidence of running their households in a specific vocational area.

Conference Venue *Le* MERIDIEN NEW DELHI

Le Méridien is a global hotel group with a portfolio of more than 120 luxury and upscale hotels in over 50 countries worldwide. It is located at the heart of the city, close to the houses of power like Parliament House and Rashtrapati Bhavan, the business-cum-shopping hub of Connaught Place, New Delhi railway station, and is barely 35 minutes away from the airport.

Conveniently located in the heart of the city, Le Meridien, New Delhi towers over the historic landscape of Lutyen's Delhi. Designer interiors coupled with state-of-the-art technology ensure an experience par excellence. Approximately 20200 square feet of total conferencing area including two halls and six meeting rooms are available with some of the finest and most advanced technologies. The luxurious guestrooms offer grand views of this historic yet ultra-modern city and a serene atmosphere.

Conference Room

An ideal venue for various events that showcases rich, warm and elegant hues, looks on to lush green lawns, and opens on to an elegantly furnished deck. It offers a digital sound system, roll-down screen, in-built projection system, cordless sound system for conferences, and roll-down curtains. All the features are controlled by AMX remote controller.

The venue is ideal for business meetings, conferences with natural daylight, workshops, training programmes, award ceremonies and press conferences.

The venue can be clubbed with outdoor deck area for a large gathering with option of buffet laid outside to provide maximum space.

A truly versatile venue driven by high technology.

The 358 rooms which include 52 suites are an integration of international style with high technology.

Vivid expressions of design and décor, each room showcases individuality that is inspiring and stimulating. Warm tones of wood textures, and well appointed rooms with modern accessories ensure that guests have a relaxed and comfortable stay.

Delhi

the capital city

Delhi is a palimpsest, bearing the complexities, contradictions, beauty and dynamism of a city where the past coexists with the present. Several dynasties have reigned from here. The city was built and destroyed seven times. It is rich in the architecture of its ancient monuments. Diverse cultural elements absorbed into the daily life of the city have enriched its character. Exploring the city can be a fascinating and rewarding experience.

Climate:

The average temperature of New Delhi during October ranges from 20 C to 25 C

Currency:

The national currency for India is the Indian Rupee (INR)
Exchange rate (as applicable)

http://www.worldtravelguide.net/country/120/passport_visa/Indian-Subcontinent/India.html

Time:

Standard time zone: UTC/GMT +5:30 hours.
No daylight saving time in 2012.

Qutub Minar

Qutub Minar is a soaring, 73 m-high tower of victory, built in 1193 by Qutub-ud-din Aibak immediately after the defeat of Delhi's last Hindu kingdom. The tower has five distinct storeys, each marked by a projecting balcony and tapers from a 15 m diameter at the base to just 2.5 m at the top. The first three storeys are made of red sandstone; the fourth and fifth storeys are of marble and sandstone. At the foot of the tower is the Quwwat-ul-Islam Mosque, the first mosque to be built in India. An inscription over its eastern gate provocatively informs that it was built with material obtained from demolishing '27 Hindu temples'. A 7 m-high iron pillar stands in the courtyard of the mosque. It is said that if you can encircle it with your hands while standing with your back to it your wish will be fulfilled.

Agrasen ki Baoli

Agrasen ki Baoli (also known as Agar Sain ki Baoli or Ugrasen ki Baoli), designated a protected monument by the Archeological Survey of India (ASI) under the Ancient Monuments and Archeological Sites and Remains Act of 1958, is a 60-meter long and 15-meter wide historical step well on Hailey Road near Connaught Place, Jantar Mantar in New Delhi, India. Although there are no known historical records to prove who built Agrasen ki Baoli, it is believed that it was originally built by the legendary King Agrasen[3] during the Mahabharat epic era and rebuilt in the 14th century by the Agrawal community which traces its origin to Maharaja Agrasen.

It is among a few of its kind in Delhi. Some parts of the well, with 103 steps, are permanently immersed in water. The visible parts of this historical step well consist of three levels. Each level is lined with arched niches on both sides. From an architectural perspective this step well was probably rebuilt[13] during the Tughlaq period.

Trail the paintings on the walls

Some of Delhi's
most stunning street art

The Delhi street art scene is buzzing; whether it is legal projects - those done under St ART Festival or illegal graffiti. All these are a sign of creativity and freedom of expression. Some of the most stunning street art in Delhi is found in Shapur Jat - which has steadily gained a reputation for all things avant garde, with its vintage inspired cafes, kitschy interior havens and on-trend fashion and accessory outlets that supply everything from a stapler to a well tailored suit. From artist studios, cafes modelled on camaraderie and fashion fabricated from all things natural, to high-end boutiques and concept stores. It has been transformed from a small village into a walking art gallery.

How to Register

There are three easy ways to register for the meeting:

On-Line:

Go to www.issicon.com complete the online registration form and submit it. This is the preferred method of registration.

Email:

Download the registration form online & mail it to issicon@isiconline.org

Mail:

Download the registration form and send your completed congress registration form to:
ISSICON 2019
Conference Secretariat
Indian Spinal Injuries Centre
Vasant Kunj, Sector- C,
New Delhi- 110070, India

Payment:

Payment may be made by:

1. Electronic Transfer (A handling fee of 2% will be charged for electronic transfers)
2. Credit Card/Debit Card

Beneficiary Details for Electronic Transfer:

Account Number - 000701230212
Account Name - SPINAL CORD SOCIETY
Bank - ICICI BANK LIMITED
IFSC Code - ICIC0000007
SWIFT code - ICICINBBCTS
IBAN Number - 000701230212

Proof of Payment by Electronic Transfer:

- Proof of payment must be supplied with the registration form.
- Please supply the date of transfer plus the delegate's last name and initial to identify payee.
- Receiving the completed registration form and proof
- Supply a copy of deposit slip.

Acknowledgment of Registration:

Registration will be acknowledged by email within 7 days of receiving the completed registration form and proof of payment.

Registration and Cancellation policy:

All cancellations of registration must be submitted in writing to the Meeting Secretariat and will be subject to the following refund policy:

1. 25% Cancellation fee if notification is received after 15th September, 2019.
2. No refunds will be made for cancellations made after 30th September, 2019.

About SCS

Aims & Objectives

The main aims and objects for which the society is established are the advancement of management, training and research in spinal injuries.

To arrange lectures, symposia, seminars, panel discussions and meetings in India, by the members of this profession (Indian and Overseas) interested in Spinal Injuries and who have extensive clinical experience and/or have conducted original work in this field.

To demonstrate or lecture/ demonstrate cases of clinical interest in the field of Spinal Injuries.

To impart current knowledge in Spinal Injuries to the psychologist, general practitioners, post graduate students and others who are interested in Spinal Injuries.

To arrange refresher courses for general practitioners in Spinal Injuries.

To participate and actively assist in any support group for spinal injuries that may be initiated by patients or their relatives.

To print a newsletter and ultimately a journal of the Society called- 'Journal of Spinal Cord Society' – JSCS.

To commission and publish general information pamphlets and booklets on Spinal Injuries disorders, for distribution to patients, general practitioners or laymen of the public.

To raise funds and acquire property (movable and/ or immovable) in order to promote the various activities of the society.

To confer grants, fellowships, research scholarships or travel grants to deserving applicants, who would undertake research in various Spinal Cord diseases.

To possess all the intellectual proprietary rights, document, information, design, preparatory work, software, invention or research paper created on behalf of the society.

To do all such lawful things as are incidental or conducive to the attainment necessary or conducive to the attainment of the aforesaid objects.

Guidelines for Oral Presentations

Oral presentations will be for the following Sessions:

Gold Medal Paper/Free Paper.

The time allotted for each oral presentation differs according to the category of oral presentation- SCS Gold Medal paper presentation (8 minutes for presentation and 2 minutes for Discussion) or Free (6 minutes for presentation and 2 minutes for Discussion). It is suggested that you plan your presentation in advance, and practice it in order to make sure that it fits within the allowed time. No exceptions will be made.

- While planning your presentation, make sure that you go straight to the point.
- Avoid spending too much time on introduction and background.
- Ideally, the sections of your speech should be:
 - Aim of the study
 - Methodology
 - Results
 - Conclusions

Delivering An Oral Presentation

- The presentation should in power point format (MS Office 2007/ 2003, not preferably MAC system).
- We suggest that you do not put too much information on one slide. Each slide should not have more than:
 - 8 lines of text.
 - 8 words per line.
- Avoid complex tables- use pictures, graphs and charts, as these should summarize your thoughts;
- If you use animations, be sure that you remember how they work when delivering the presentation;
- If you want to use a template, find one that relates to the contents of your presentation.
- Make sure that the graphic template of your presentation is user-friendly. Use simple graphic backgrounds; complex backgrounds will make your text unreadable.
- Make sure that there is contrast between the color of the background and the text. (Generally, pastel-color backgrounds are more suitable for presentations delivered in small rooms. Dark-color backgrounds, with light colors for the text, are more advisable for presentations to be delivered in a large auditorium.)
- **Turn off your mobile phone when you are delivering your presentation.**

If you are not very familiar with public presentations, it is suggested that you practice your paper in front of colleagues before the conference.

Important Note: Check that your presentation works before delivering it. We will provide a presentation preparation room where speakers will be able to test their computer presentations.

Get to know the audio-visual controls in advance. Tell the staff that you will be delivering the presentation and that you want to check how the facilities work. You have the right to do so.

Speak clearly, distinctly and slow enough that also those whose native language is something other than English can enjoy your talk. Keeping a presentation within 8/6 minutes may be hard if you do not plan your speech wisely; speaking quickly is by no means a good solution.

If there are any other queries, kindly feel free to let us know.

Wishing you good luck and seeing you at conference.

With Warm regards

Dr H S Chhabra,
Secretary-Spinal Cord Society

Guidelines for Poster Presentations

Definition: A poster is a visual display of the scientific abstract accepted to the conference. The focus is on a study, hypothesis or procedure/technique.

Posters will have equal importance as oral presentations.

Authors will receive a follow-up email with detailed instructions on the organization of posters within two months before the start of the congress. However general guidelines are as under:

Posters will be placed in groups or sessions (by subject), and identified by numbers on the boards and in the book of abstracts.

You will be provided material to mount your poster on the designated site at the poster presentation area. Posters should preferably be mounted on November 18th, 2017 before 09:00 am. Organizing Committee members will be at your disposal to help you.

Posters will be displayed throughout the meeting. They can be removed on November 19th, 2017 at 2:30 pm. The Organizing Committee will not take any responsibility of poster which has been not removed.

The second half of breaks will be the specific viewing times for posters. Authors are advised

to remain next to their posters during these times for any discussions.

If authors are receiving any sponsorship from a company manufacturing a product mentioned in a presentation, this must be clearly disclosed on the poster.

Authors may also want to bring some hand-outs of the posters which could be kept next to the posters.

Presenting A Poster

- ◆ Posters should be no more than 80 cm (31.5 inches) wide and 120 cm (47.2 inches) high.
- ◆ Posters will be viewed from a distance of at least 1 to 2 metres (3.2 to 6.4 ft.). Therefore lettering should be clear and bold, with the title at the top of the poster, in letters at least 3 cm (1 in) high. For narrative use large print such as 24 point.
- ◆ Certain color combinations provide better contrast: Black on Yellow, Red on White, Black on Orange, Green on White or Green on Black.
- ◆ Don't make your display overly ornate- this will distract viewers from the impact of your information.
- ◆ Use brief captions and few labels.
- ◆ Use large typescript if displaying a copy of your abstract.
- ◆ Keep illustrations clear, using charts, graphs, drawings and pictures.
- ◆ Use matt (silk) finish photographs. This will help diminish glare.
- ◆ If your exhibit is made on paper or construction paper, the component parts can be rolled up and placed in a cardboard mailing tube (diameter 4 inches).
- ◆ It is important to have the exhibit completely assembled so that it takes minimal time to set up on site.
- ◆ Do not write on the board provided to paste your poster.

If there are any other queries, kindly feel free to let us know.

Wishing you good luck and seeing you at conference.

With Warm regards

Dr H S Chhabra,
Secretary- Spinal Cord Society

Award

Best Published Paper Award

The paper pertaining to spine, published in any peer reviewed journal in the year 2018 will be considered for this award of Euro 1000 sponsored by Dr Patrick Kluger. Full text of published paper should be sent to issicon@isiconline.org

Space booking

Application in prescribed Confirmation Form for participation in the exhibition should be signed and submitted latest by 30th September, 2019 for booking of space against full payment.

Location

Exhibition will be held in an open area adjacent to the perimeter of the lunch and tea / coffee area.

Timelines

- ♦ Stalls will be allocated on first come first serve basis.
- ♦ The exhibitor badges will be distributed from the registration counters at the Conference venue on 12th October, 2019
- ♦ Possession of Exhibition Space would be given to the Organizers on 11th October 2019 at 2400 hrs. The stalls will be ready and available to Exhibitors at 0600 hours on 12th October 2019.
- ♦ The stall would have to be ready by 1000 hrs on 12th October, 2019.
- ♦ The exhibition timings will coincide with the session timings during the conference. The dismantling of stalls will start at 1400 hrs sharp on 13th October, 2019 and should be completed by 1700 hrs on the same day.

Installation and dismantling of exhibits

- ♦ Installation and dismantling of exhibits may not begin before the specified starting time and must be completed by the specified completion time given by the Organizers and is the responsibility of the exhibitor.
- ♦ The Exhibitors are expected to remove the tapes being used on the panels. Any damage to the panels / rented material will attract penalty.

Exhibit displays

- ♦ Any litigation with regard to display products will be the liability of the exhibitor and organizers will not be responsible for any such issues.
- ♦ In case of international exhibitor, the visa recommendation letter will be issued only in favour of the representative nominated by the participating companies.

Set-up Guidelines

- ♦ No cloth banners or nailing is allowed in stall. However, posters and self-standing banners are allowed.
- ♦ Participants should not take support of any permanent structures in Exhibition Venue for display.
- ♦ Woodwork or such activity, inside or outside the Exhibition stall is prohibited. However, participants are advised to bring prefabricated stalls for assembly in the exhibition. No hammering, nailing is allowed for set up.
- ♦ Display panels, branding towers, name boards, sample holders, photographs and other display material are permitted in the stall, subject to a maximum height of 2.5m, if any.
- ♦ Spotlights, focus lights etc. are permitted provided these are fitted along with the stall

structure within the maximum height of 2.5m. Additional Electrical requirement to be communicated to the organizers by 1st November, 2017.

- No suspended displays/structures are permitted from the adjoining walls / pillars of the exhibition area.
- Audiovisual display is permitted; provided it does not disturb the exhibition ambience and conduct of business at nearby stalls.

Cleaning

The Organisers shall be responsible for general cleaning of the area and aisles (Pre-exhibition). Exhibitors shall be responsible for their individual stall cleaning, which must be completed daily before the exhibition opens.

Security

- The Organisers shall be responsible for general security. Security services will be in place from set up period till the close of the dismantling period.
- Participants are requested to intimate their list of exhibits prior to the exhibition to the organizers. They need to carry five copies of list of exhibits on their company letter heads.

Advertising in exhibition area

- Since the exhibition is open for very high profile dignitaries, participants are requested not to distribute printed matter and advertising materials at the venue or any other place other than their stalls.
- Audio visual displays by participants should be restricted to their stalls only without causing any disturbance. The Organiser shall be entitled to intervene and discontinue or remove equipment if they cause any disturbance.

Additional information

- Arms and ammunition, explosives, contraband and/or other goods prohibited by Indian law, will not be allowed inside the venue
- The exhibition organizers may, in exceptional circumstances, revise the area or the sites rented, or change the location.
- Exhibitors are advised to install equipment like Voltage Stabilisers/ CVTs/ UPS/ isolation Transformer for their sensitive machine/exhibits.

General

- Sharing or Subletting of Space/stall is not permissible. Violation of this may lead to cancellation of space allotted, forfeiting of participation fee etc. paid to organizers. Only group companies will be considered subject to prior information given to organizers.
- Environment friendly, re-usable packaging material is recommended for exhibits to avoid waste and have the minimum environmental impact.
- Any distribution of literature or samples shall be limited to the exhibitor's stall.
- Storage of flammable articles are prohibited.
- Participants should keep their stalls duly attended during the visiting hours. They are not allowed to close their stalls before the closing time of the exhibition.

Sale of exhibits

Sale of exhibits is not allowed and any liability of risk will be on the account of exhibiting companies.

Music

Playing of any kind of music is prohibited at the exhibition.

Smoking

Smoking in the stall and in the halls is prohibited at the conference and exhibition.

Force Majeure:

Under the conditions of Force Majeure, which also include Act of God, strike, lockout, bandh or riot, act of terrorism, natural calamities and other events and decisions beyond the control of the Organisers; the Organisers are entitled to alter the opening dates and duration, or even cancel the entire exhibition.
